Cookie Policy

Understand how cookies are used to enhance your browsing experience.

1. What Cookies Are

Cookies are small text files stored on your device. They support website functionality, improve performance, and help deliver a smoother, more personalised user experience.

2. How Cookies Are Used

Cookies help distinguish users, enhance website performance, and provide insights through analytics. This information helps us maintain and improve the quality of our website.

3. Types of Cookies We Use

We use strictly necessary cookies essential for site functionality; analytical cookies used to analyse interactions and traffic; functionality cookies that remember preferences; and targeting cookies used for relevant marketing or advertising.

4. Third-Party Cookies

Third-party service providers may place cookies on our website. These are outside our direct control and are governed by the respective third-party privacy and cookie policies.

5. Blocking Cookies

Users may block or delete cookies using their browser settings. However, disabling certain cookies may affect site performance or functionality.

6. Expiry

Non-essential cookies expire after predetermined periods and may be refreshed when users revisit the site.
